

# SURVIVE THE COLLAPSE

## THE RULES

### How to win?

To survive, a team must fulfil two objectives:

#### **COLLECTIVE OBJECTIVE**

Teams must collect resources to survive. There are four different resources: water, food, energy and metal. To win the game all teams must arrive at the final location by the rendezvous time with enough resources to survive. If even one team is short on resources, everybody loses. Players are encouraged to help other teams to make sure everyone survives.

The number of resources needed to survive are defined by the survival targets.

#### **INDIVIDUAL OBJECTIVE**

The team who collected the largest amount of resources will win the game.

#### **SURVIVAL TARGETS**

At the start of the game, the survival targets are of 3 for all resources, which means that all teams must have at least 3 water, 3 food, 3 energy and 3 metals to survive. However, those targets might be changed later in the game because of catastrophes.

# SURVIVE THE COLLAPSE

## THE RULES

### How to get resources?

There are several ways to obtain resources:

#### **INITIAL DRAW**

Each team starts with 1 resource. There will be a lucky draw. Each team will draw 1 country which will determine the 1 resource they will start with.

#### **RESOURCE SUPPLIERS**

There are only 4 resource suppliers left on Earth, one for each resource. Find the resource supplier. He will challenge you. You will earn up to 3 of the same resource if you succeed at his challenge.

Note 1: if you arrive while another team is playing, you will have to wait for your turn.

Note 2: if you fail a supplier challenge, you may trigger a catastrophe that will affect all players

#### **SCAVENGING**

Find locations, items or apps following the clues list, take a selfie to prove where you are and send it to the WhatsApp group. You can earn 1 resource per selfie.

Note: Once the location has been found, it can't be found again by another team.

#### **STEALING**

Teams can attack other teams to steal their resources. When a team meets another team, they can decide to confront the other team in a rock, paper, scissors (or any game of your choice). Whoever wins gets one resource from the other team.

Both teams must communicate the theft immediately on the WhatsApp group.

#### **TRADING**

Teams can engage in trading at their own terms.

Please communicate the resources you have traded immediately on the WhatsApp group.

# SURVIVE THE COLLAPSE

## THE RULES

Be careful, you can also lose resources...

**CATASTROPHES** might happen at any moment in the game due to climate change. They will be communicated through WhatsApp and impact all teams in the same way.

### Track resources

At any time, you can track the amount of resources you have as well as the other teams on this link:

<https://tinyurl.com/WhoWillSurvive-Tracker>

If you have properly registered to the game, you should already be in the **SURVIVORS GROUP** WhatsApp chat.

Make sure at least one person in your team is in the chat, this is where you will notify the admin when you obtain resources.

### End of the game

The game final location is

**BERLIN BAR CHIJMES**

**B1-06 CHIJMES, 30 VICTORIA ST, 187996**

You are requested to go to there by the end of the game, at **7PM**.

At that point, the winners will be announced.

**Note:** If you arrive there early, you will have more time to trade resources with the other teams.

### PRIZES

If everyone survive, players will be offered a happy hour until midnight, instead of the normal 9pm.

The winning team will get a beer tower (worth 69++\$)
